PREFACE.

This work includes the names of the tax payers of the county, as returned by the assessors of the several townships for the current year, and is arranged under one alphabet, to save the trouble of consulting several alphabets, when the town, city, or village in which a person resides is not known.

Any one not acquainted with the nature and peculiar character of a work of this kind, can hardly realize the amount of labor required and the care necessary to produce one, even approximately correct in all its parts. Past experience has taught us that it is impossible to avoid errors, but we have spared no labor, and have used every precaution within our power to avoid them, and trust that the present volume will compare favorably with other publications of the same nature in regard to accuracy, arrangement of matter, and mechanical execution. We would, however, ask those who may discover errors in the spelling of names, occupation, rate of standing, or location, to blend charity with their criticisms.

We have been largely dependent upon the assessors of the several townships in the preparation of this work, and we here acknowledge ourself under many obligations to most of them, for the willingness they have manifested in collecting and reporting to us the desired information.

IV.

We also desire to tender our obligations to those who have extended to us their patronage, and trust that the work will prove beneficial to them, and to the business community in general, so that, should we come before you in the future in a like capacity, others may be ready to lend a helping hand.

EXPLANATORY NOTES.

NOTE 1. The figures, 1, 2, 3 and 4, relate to the estimated financial standing, as follows: 1 is used to denote the ownership of real estate over \$5,000 in value; 2 is used to denote the value of real estate between \$1,000 and \$5,000; 3 is used to denote the ownership of real estate of less than \$1,000 in value; 4 is used when the person or firm is not known to own real estate.

NOTE 2. N. S. and W., after the section, are used to denote the location in the town where they occur, thus: N. refers to town 22 north, which occurs in Prairie Creek, Oryville, and Eminence. S. refers to town 17 north, which occurs in Elkhart and Mt. Pulaski, and in the south part of West Lincoln, town 19 north. W. refers to range 3 west, and occurs in sections 12, 13, 24 and 25, on the west side of Chester.

NOTE 3. The postoffice address of each person is the last word in the line, and when they reside in the city or village where the postoffice is located, no other name is used to designate their residence. And when the town and postoffice have the same name, it is used but once, as the number of the section designates the locality in the town.

BUSINESS MEN

—WILL FIND—

Advertising in The Herald

A PROFITABLE INVESTMENT.

Its circulation in Logan County is as noteworthy for quality as extent. THE HERALD reaches a well-to-do class, who are able to buy, being largely the old families of the County.

No business man can afford to overlook the fact that the most business-like way to reach the people of Logan County, and the cheapest way to reach them, is through the columns of THE HERALD.

 Rates low for the circulation given the advertisement.
